My Hive

Design: Poul Christiansen

My hive is a flexible workstation available in two different models: A spacious, rectangular workstation, and a hexagon-shaped one.

The key features of this product create a minimal and elegant expression:

First, instead of legs, My Hive integrates the table-top into the sound absorbent screens. Second, the mechanism for adjusting height is hidden behind zippers. Third, there is a smart case under the table used to store the cables.

Absorption

Attenuation

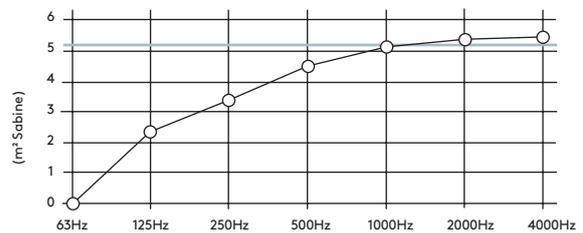

Materials:

The screen consists of a soundabsorbent filling mounted within a solid wood frame. Both sides of the screen are upholstered in fabric.

The fixed or height-adjustable desk is made of white laminate.

Concealed cables/mechanism.

Equivalent Sound Absorption Area
(m² Sabine)/Unit*

*=Test dimensions, My Hive 120°: 5,1 m² (blue line).

Measurements WxHxD (mm)

Workstation/Sofa

My Hive 120: 2010x1350x805

My Hive 90: 1610x1350x810

Tips from Abstracta!

Explore both forms and the variety of combinations to create dynamic and surface-efficient My Hive configurations!

In addition to a workstation, My Hive's partitioned cell can also be appointed with an integrated couch for breaks or informal meetings.

Alumi

Design Nina Jobs

Alumi är ett stilfullt skärmsystem med flera olika valmöjligheter. Golvskärm, bordsskärm och kombiskärm med skrivyta.

Alumi is a stylish screensystem with several different options. Floor screen, table screen and a combi screen with writing surface.

Skärmarna består av en ljudabsorberande akustikfyllning, monterad i en aluminiumram. Båda sidorna av skärmen är täckta med pressad, ljudabsorberande polyesterfilt.

The screens consists of a sound-absorbent acoustic filling mounted on an aluminium frame. Both sides of the screen are upholstered in compressed sound-absorbent polyester felt.

Alumi kombi / Alumi Kombi light är de ultimata kombinationerna av skrivyta och mobil akustikskärm.

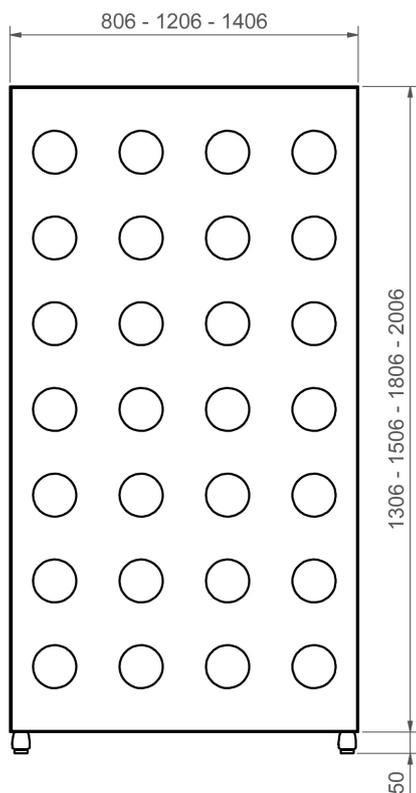

Alumi combi/ Alumi combi light are the ultimate combinations of mobile writing surfaces and acoustic screens.

Ramen till Alumi är vit alternativt naturanodiserad aluminium./The framwork for Alumi is white or silver anodized aluminium.

Psykiatrins hus, Uppsala

“Vi valde att arbeta med Abstractas skärmar för den stabila konstruktionen, designen och absorptionen. De håller för stötar och liknande medan den tunna stålramen ger tygskärmarna en vacker inramning”

“We chose to work with Abstracta screens for the stable construction, design and absorption. The screens are stable as well as beautiful due to its thin steel frame”
